| Class: TYIT                    | Batch: 2                            |
| Date of Assignment: 12-09-2026 | Date/Time of Submission: 12-09-2026 |

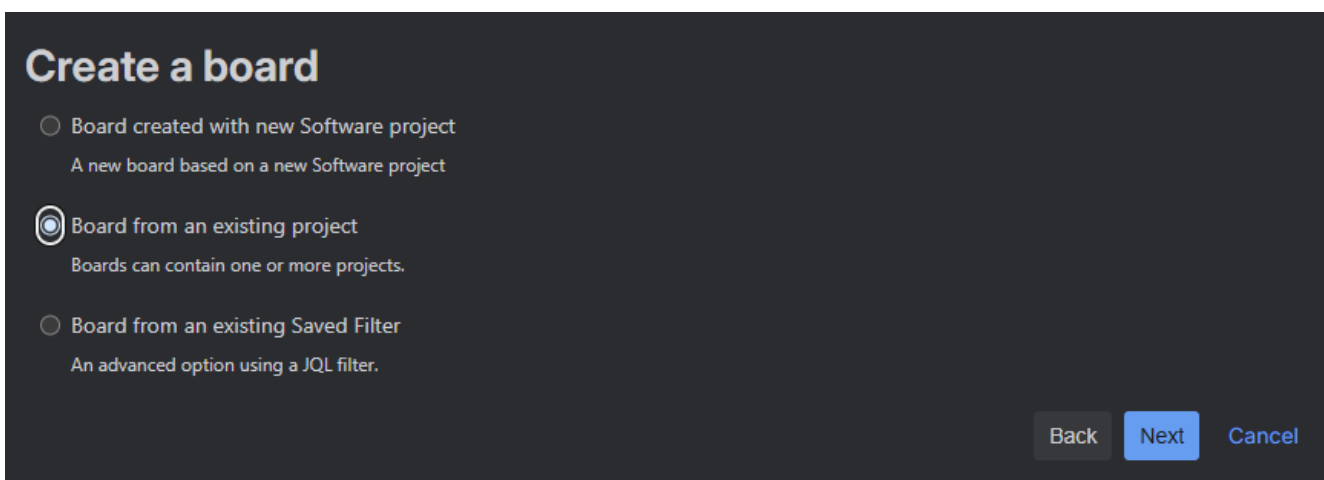

### Practical 6: Scrum Board & Sprint Management

#### A] Create and configure Scrum Board.

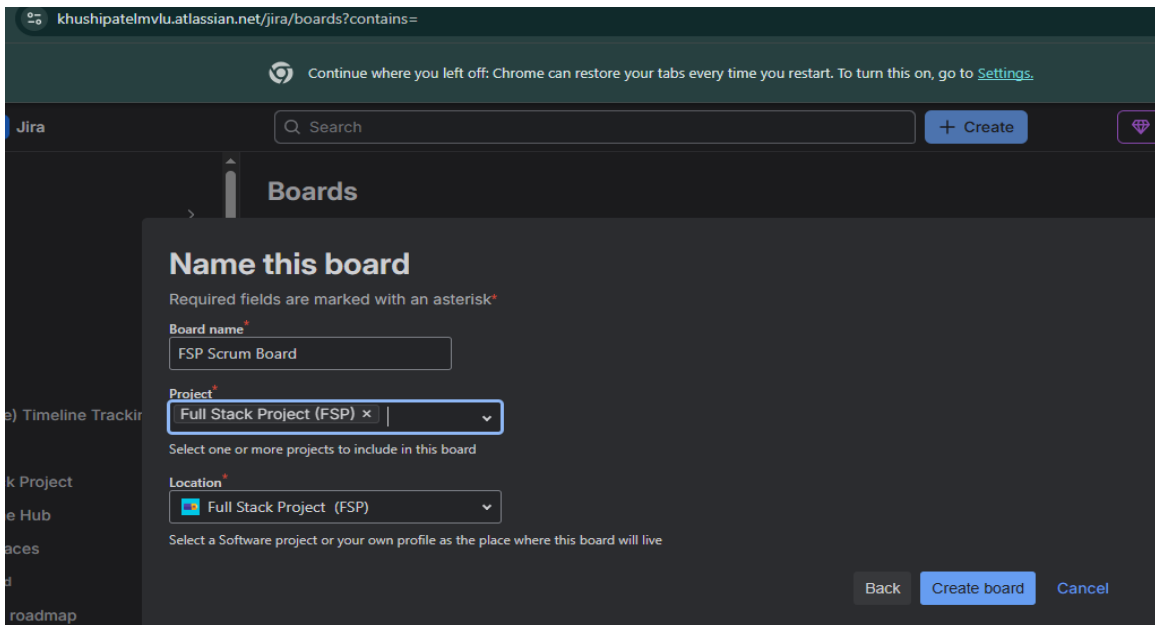

- Open **Jira** and log in to your account.
- Open the **Full Stack Project**.
- Go to **Boards**.
- Click **Create board**.
- Select **Scrum** as the board type.

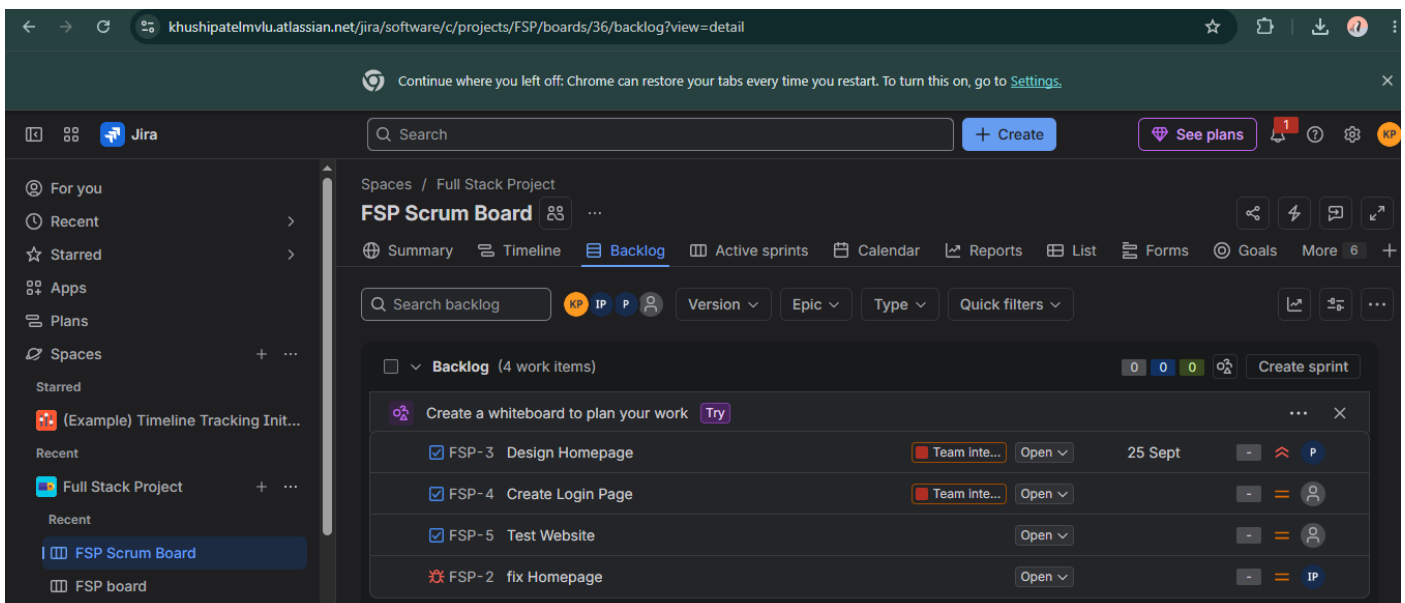

- Choose **Board from an existing project**.

- Select the **Full Stack Project (FSP)**.
- Enter the board name as **FSP Scrum Board**.
- Click **Create board**.

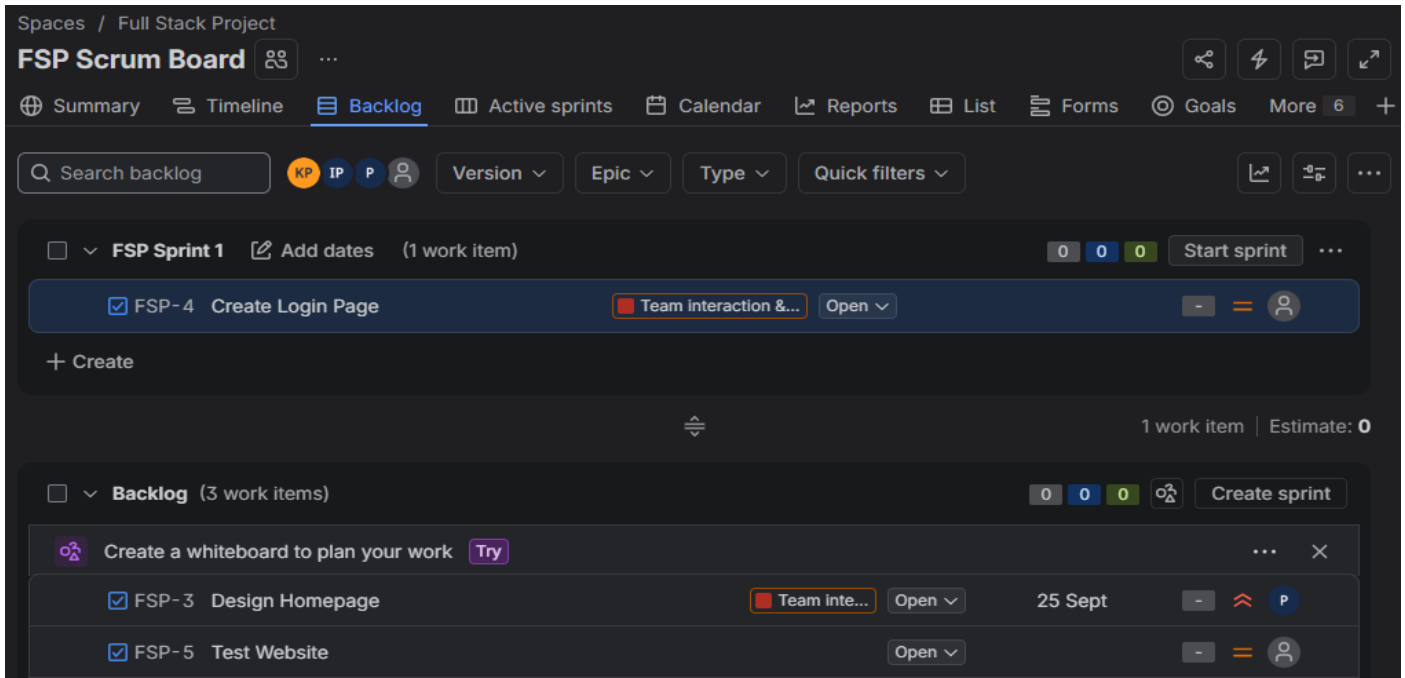

- Open the newly created **FSP Scrum Board**.
- Go to **Board settings**.
- Select **Columns**.
- Configure the workflow columns as: **To Do , In Progress , Done**
- Verify that the Scrum Board is correctly connected to the **Full Stack Project**.

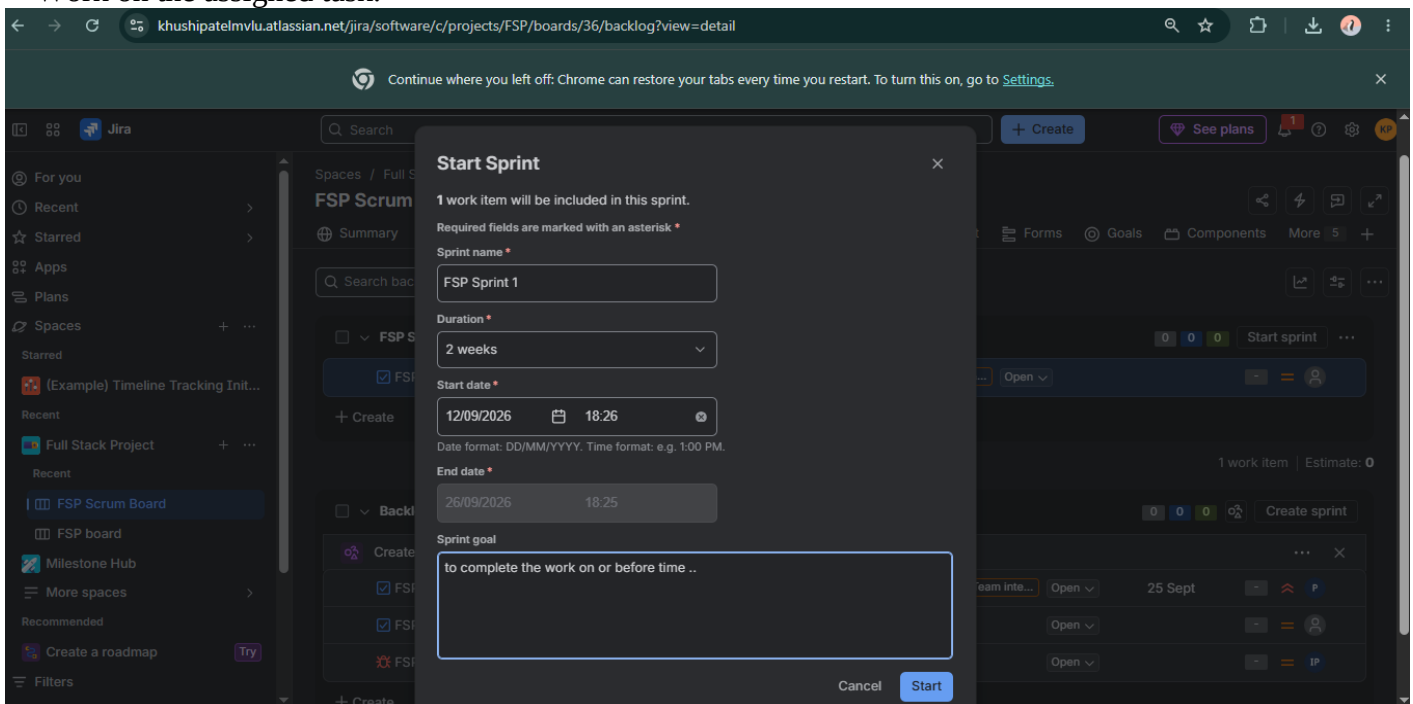

## B) Create and start a Sprint.

- Open **FSP Scrum Board**.
- Click **Backlog**.
- Click **Create sprint**.
- A new sprint named **FSP Sprint 1** is created.
- Add the required issue/task to the sprint.
- In this practical, the task used was: **FSP-4 – Create Login Page**
- Move the task from the **Backlog** into **FSP Sprint 1**.

- Click **Start sprint**.
- Enter the Sprint details.
- Set the Sprint name as **FSP Sprint 1**.
- Select the required Sprint duration.
- Click **Start**.
- The Sprint becomes active and appears under **Active sprints**.
- Work on the assigned task.

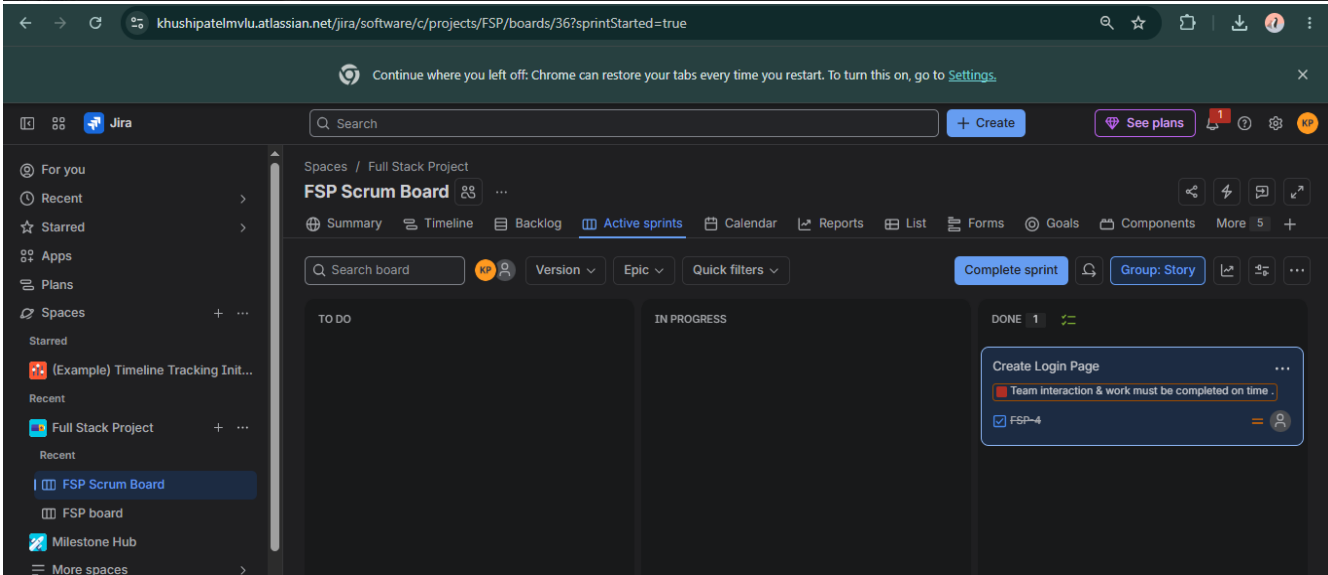

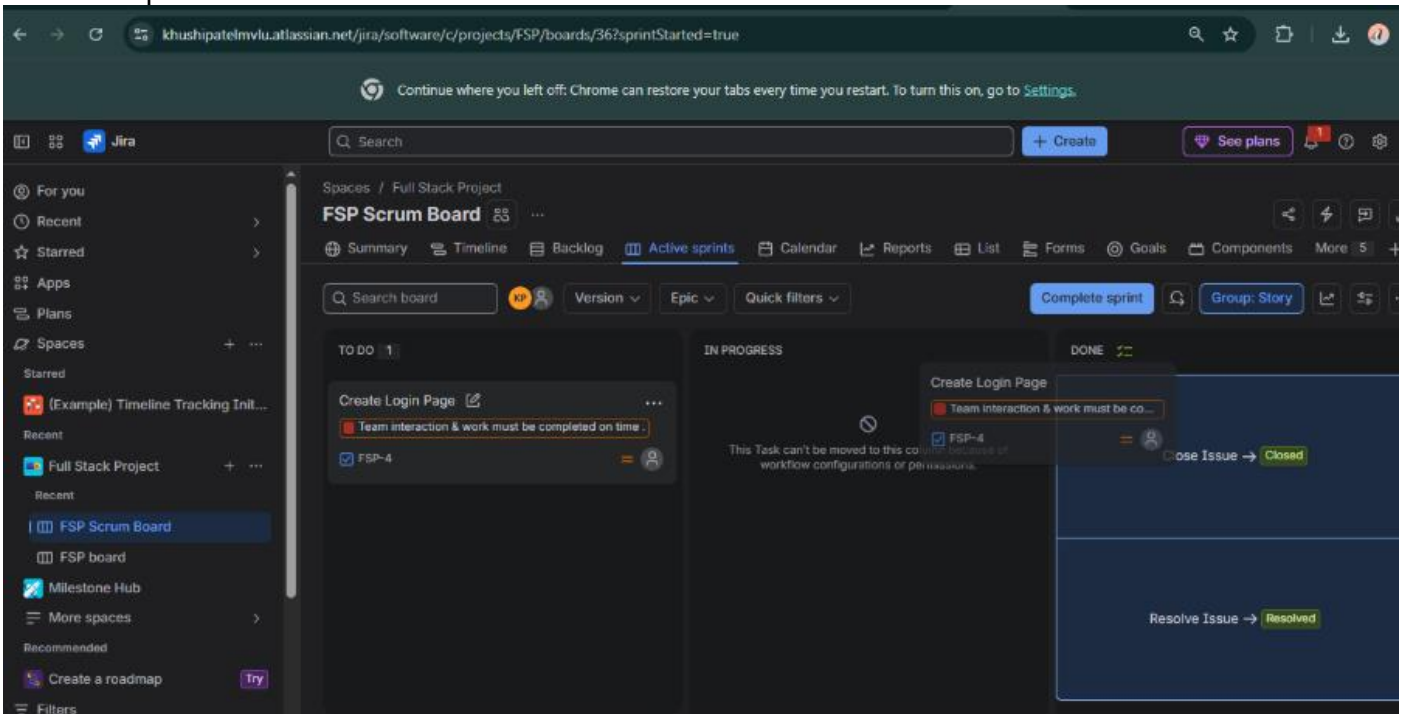

- Move the task through the workflow:  
**To Do → In Progress → Done/Closed**.
- For **FSP-4 – Create Login Page**, close the issue after completing the work.
- Select the required **Resolution** while closing the issue.

### C] Complete Sprint and generate Sprint Report

## • Complete Sprint

1. Open **FSP Scrum Board**.
2. Select **Active sprints**.
3. Verify that the completed task **FSP-4 – Create Login Page** is closed.
4. Click **Complete sprint**.
5. Review the Sprint completion details.
6. Move any incomplete issues to the **Backlog**, if required.
7. Click **Complete**.
8. The Sprint is now marked as **Closed**.

## • Generate Sprint Report

9. Go to **Reports** from the Scrum Board.
10. Select **Sprint Report**.
11. Select **FSP Sprint 1**.
12. The Sprint Report is displayed.
13. Verify the **Completed Issues** section.

- Confirm that **FSP-4 – Create Login Page** appears under Completed Issues.
- Verify that its status is **Closed**.
