M2- PRACTICAL NO - 9

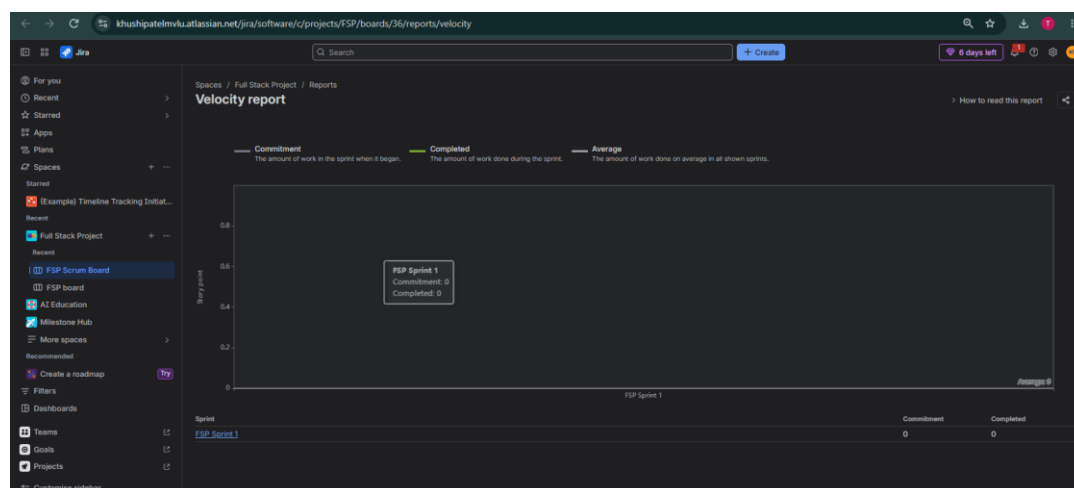

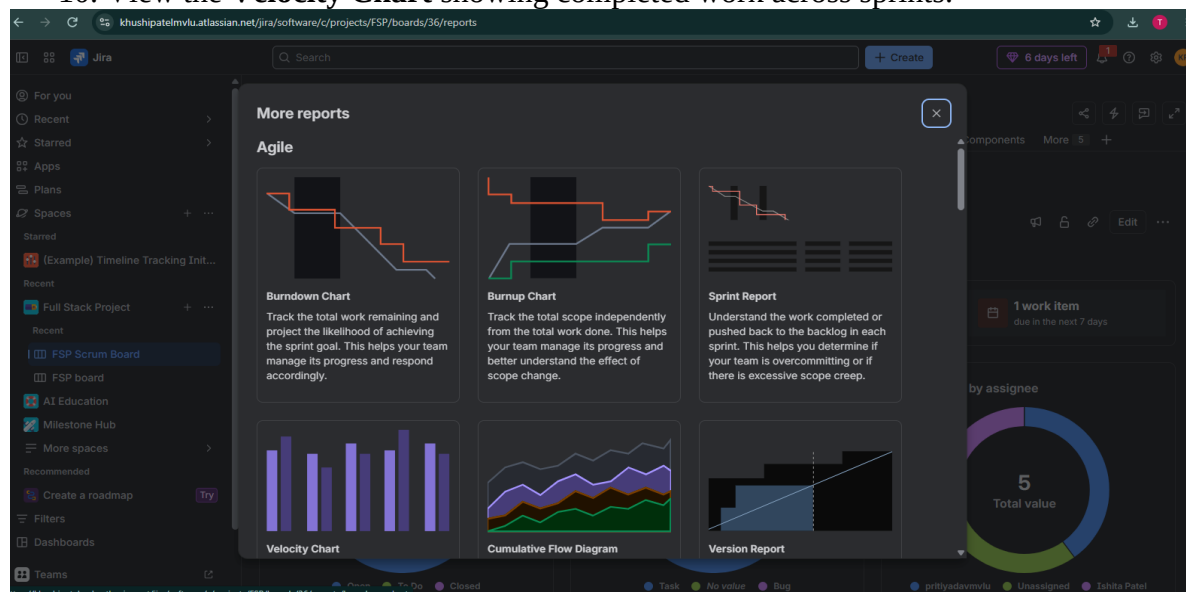

Roll No.: T032	Name: KHUSHI
Class: TYIT	Batch:2
Date of Assignment: 23-09-26	Date/Time of Submission: 23-09-26

9. Reports & Dashboards

A. Generate Burndown Chart and Velocity Chart.

Steps:

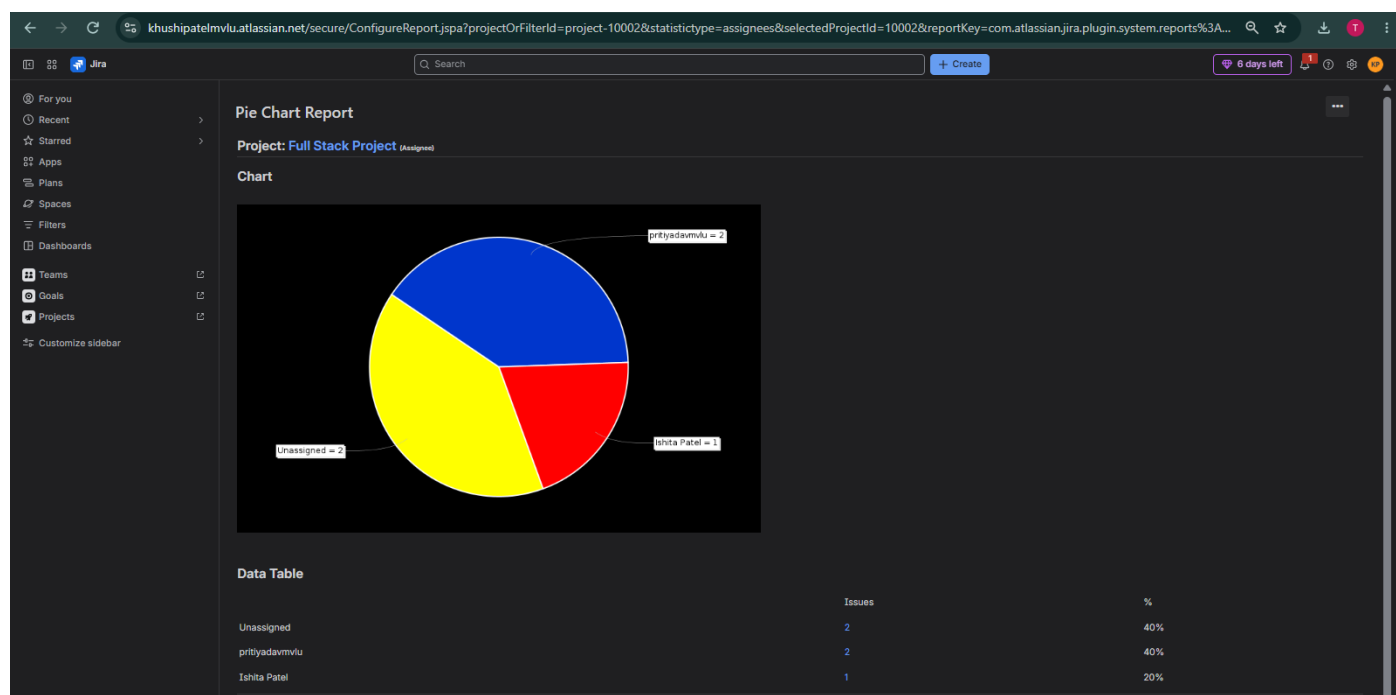

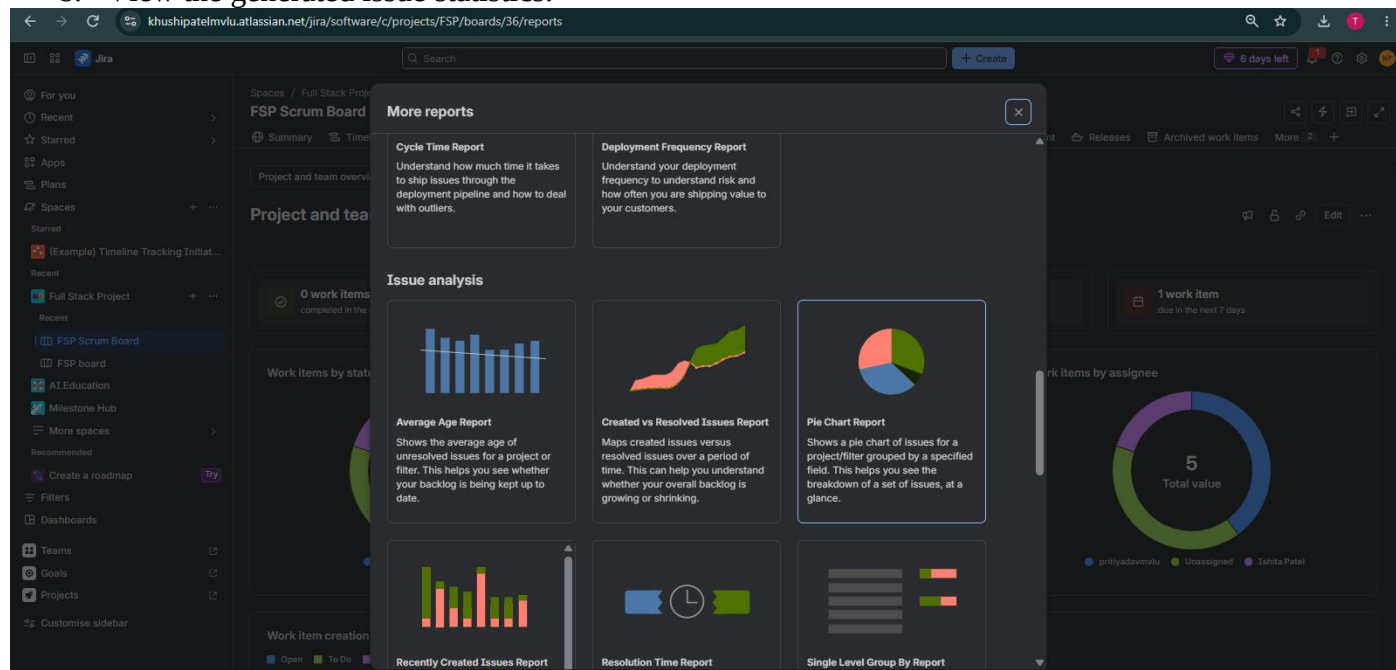

1. Open **Jira** and select the required project.
2. Open the **FSP Scrum Board**.
3. Go to **Reports** from the project/board menu.
4. Select **Burndown Chart**.
5. Select the required **Sprint**.
6. View the **Burndown Chart** showing the remaining work in the sprint.
7. Go back to **Reports**.
8. Select **Velocity Chart**.
9. Select the required number of sprints.
10. View the **Velocity Chart** showing completed work across sprints.

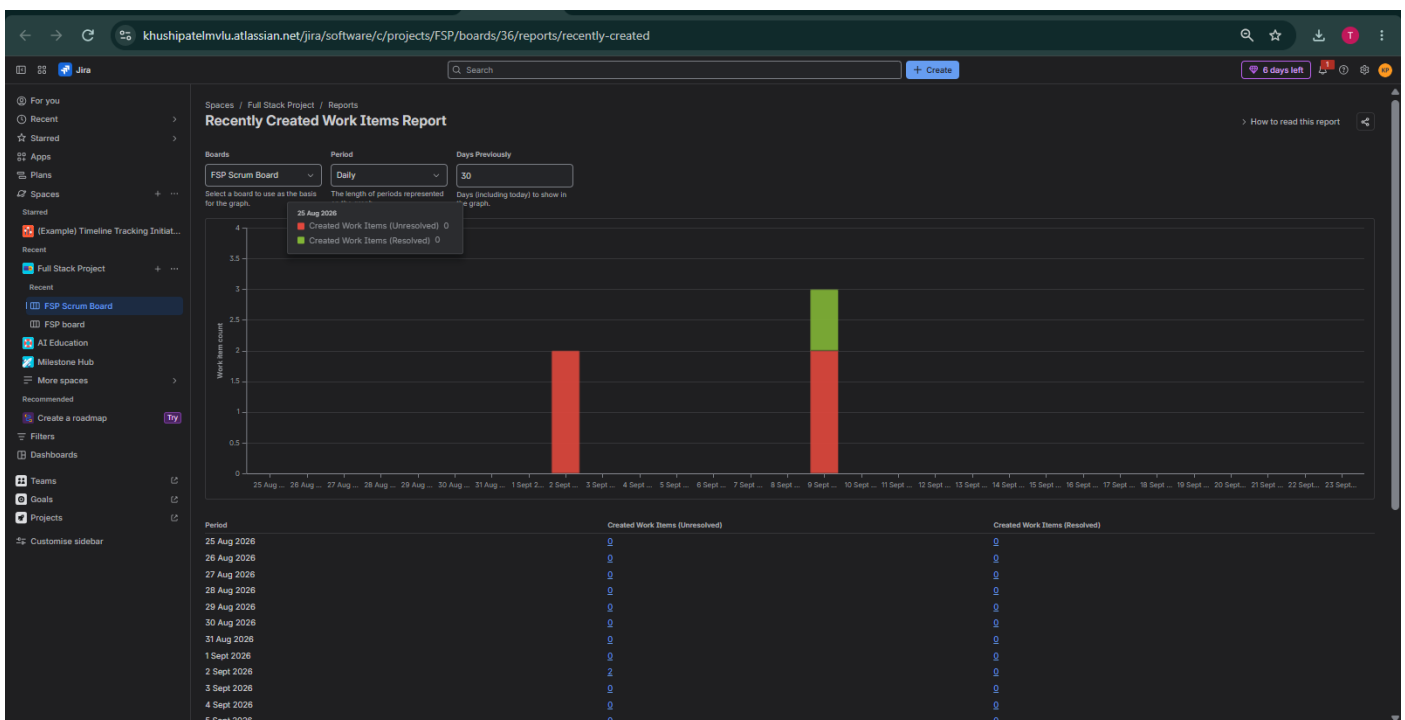

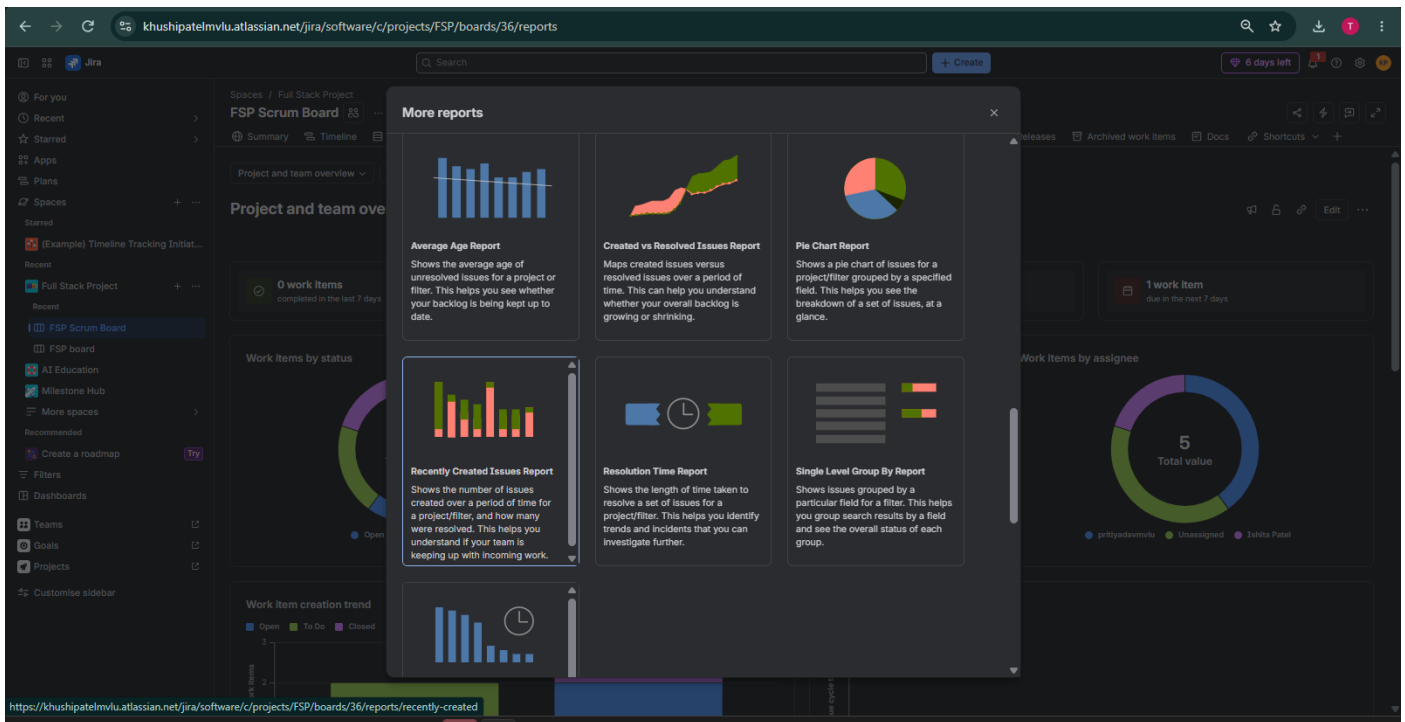

B. Create Pie Chart / Issue Statistics Report.

Steps:

1. Open the Jira project.
2. Go to **Reports**.
3. Select **Pie Chart** or **Issue Statistics**.
4. Select the required **project/filter**.
5. For the Pie Chart, select **Status** as the statistic type.
6. View the issues divided according to their status.
7. For Issue Statistics, select the required statistic type such as **Status** or **Assignee**.
8. View the generated issue statistics.

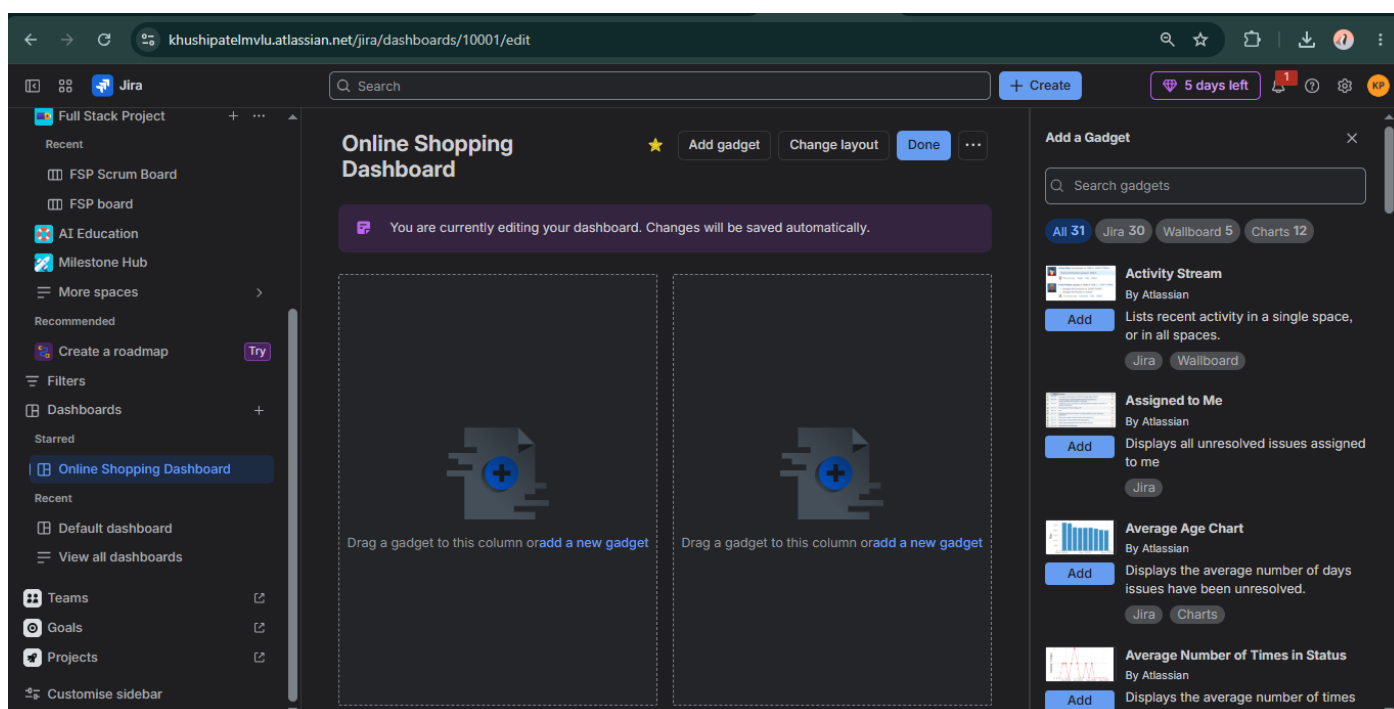

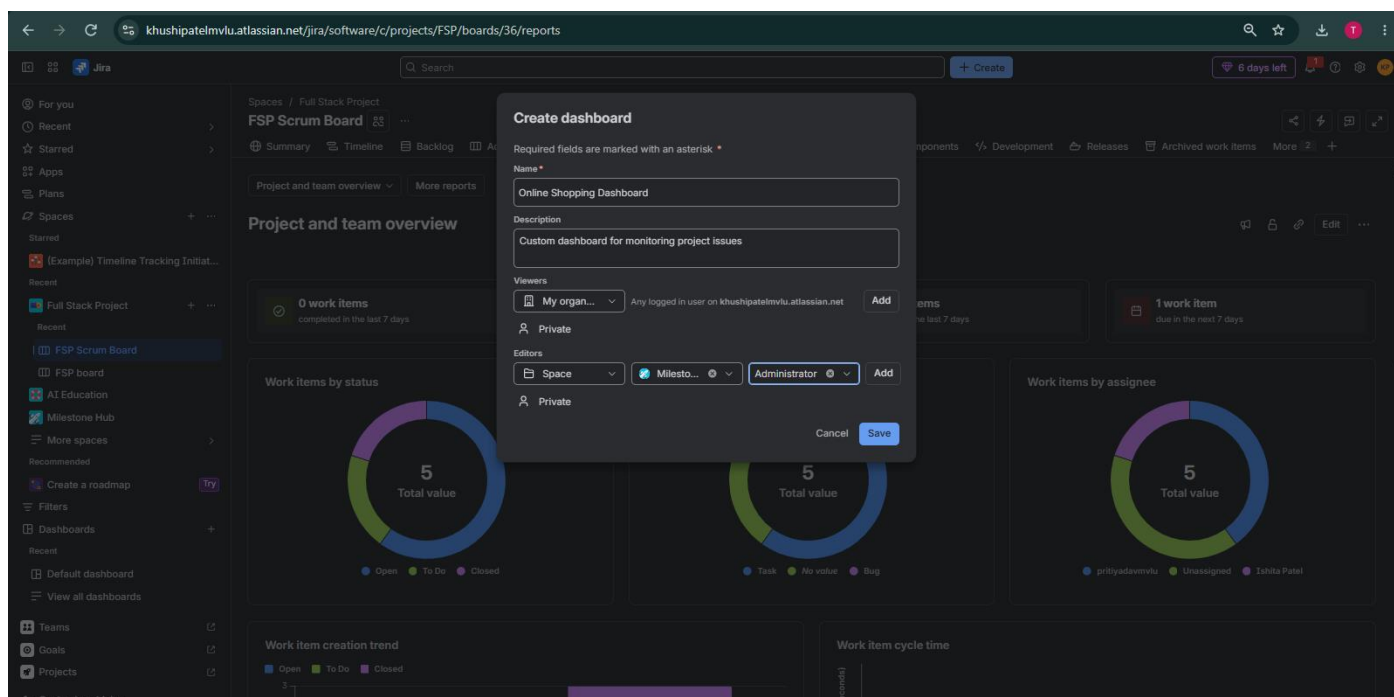

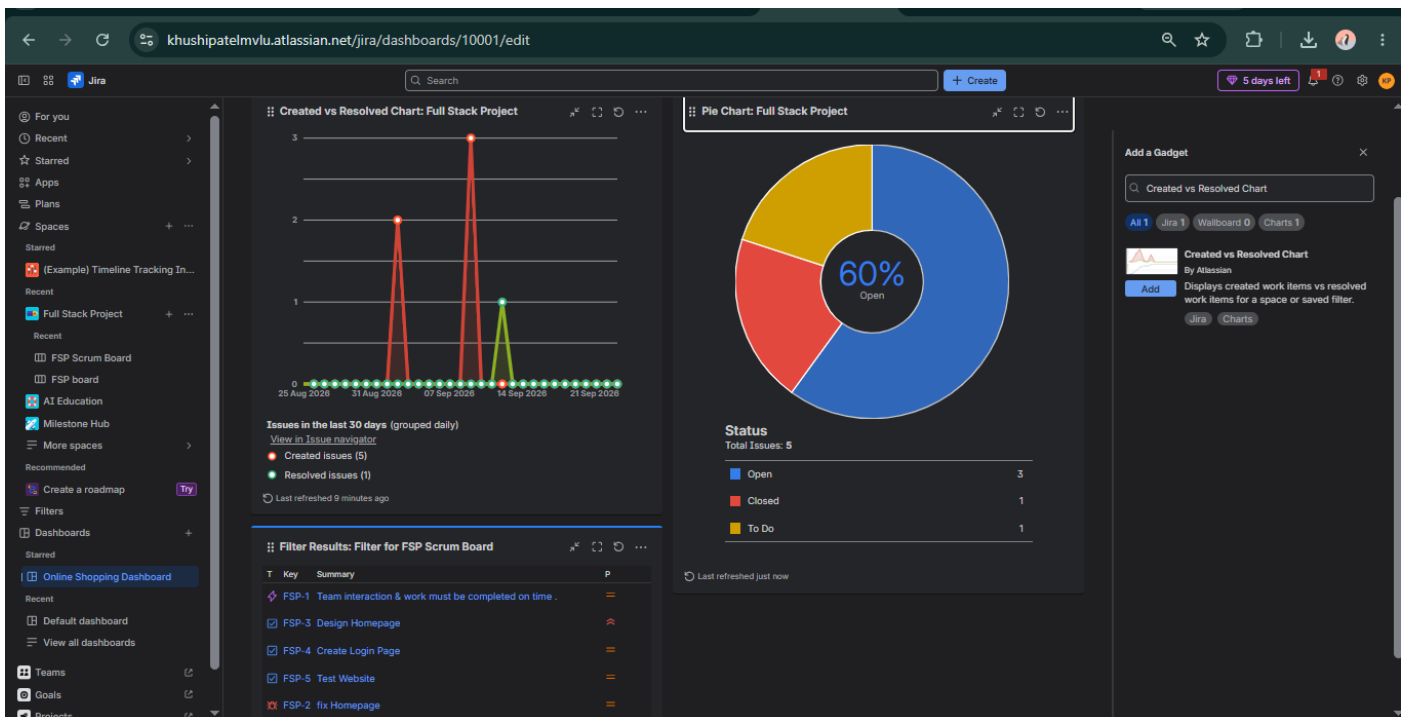

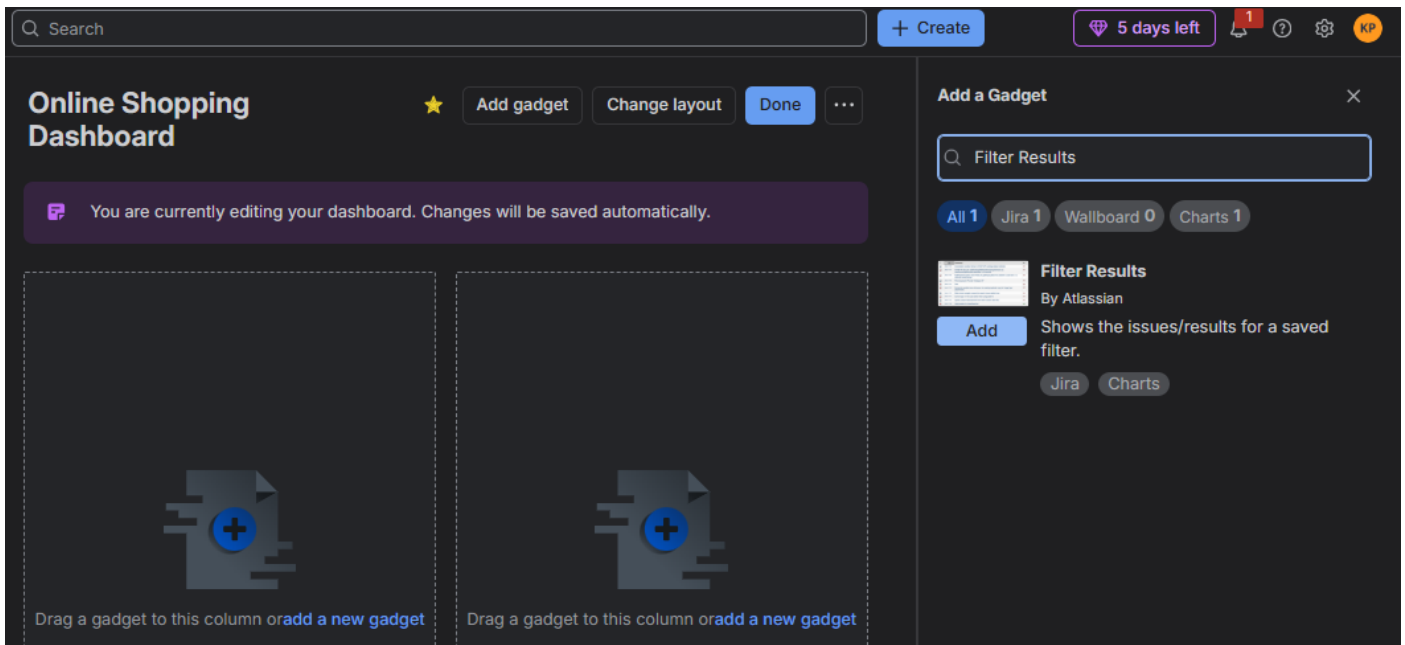

C. Create a Custom Dashboard with gadgets.

Steps:

1. Open **Jira**.
2. Go to **Dashboards**.
3. Select **Create dashboard**.
4. Enter the dashboard name as **Online Shopping Dashboard**.
5. Enter the description: **Custom dashboard for monitoring the online shopping project**.
6. Keep **Viewers** as **Private**.
7. Keep **Editors** as **Private**.
8. Click **Save**.
9. Open the newly created dashboard.
10. Click **Edit**.

11. Click **Add gadget**.
12. Search and add **Assigned to Me**.
13. Search and add **Filter Results**.
14. Search and add **Pie Chart**.
15. Search and add **Created vs Resolved Chart**.
16. In **Filter Results**, select **Filter for FSP Scrum Board**.
17. Keep the required columns such as **Issue Type, Key, and Summary**.
18. In **Pie Chart**, select the required filter and choose **Status** as the statistic type.
19. In **Created vs Resolved Chart**, select the required project/filter.
20. Keep the required chart settings and click **Save**.
21. Arrange the gadgets on the dashboard.
22. Click **Done**.
23. Verify that the custom dashboard displays all the selected gadgets.

Result:

A custom Jira dashboard was successfully created with multiple gadgets for monitoring project activities.
